

My child had an emergency and I had to get to him quickly. I got in my car and drove th 25 miles from work to the school. XM radios instant traffic allowed me to avoid major congestion and allowed me to take care of what was really important.

I subscribe to XM Satelite Radio for my personal benefit. I choose to pay for these servicesm traffic, weather, comedy, music, etc. By allowing the National Association of Broadcasters to dictate what I am permitted to hear on my paid subscription, I am being stripped of my freedom of choice.
